

## Normalcy Task Force Applicants

The following individuals have applied for positions on the Normalcy Task Force.

- **Nathan Collier** – Young Adult Previously in Foster Care
  - Would serve as a youth previously in Foster Care in a voting capacity.
  - Mr. Collier is a former youth, currently employed with the Department of Corrections. He has a passion to help youth in situations similar to what he experienced. He will soon begin law school and plans to focus on child welfare policy.
  
- **Nicole Paul** – Training & Special Projects Manager, Nebraska Families Collaborative\*
  - Would serve as representative from a child welfare service agency in a voting capacity
  - Ms. Paul has attended past Taskforce meetings and is currently involved in the Training Subcommittee. She feels that Normalcy has been a historically neglected area and wishes to use her expertise in the training field to ensure that recommendations to the legislature support change and reduce barriers.

\*Nebraska Families Collaborative has requested that Ms. Paul serve in a voting capacity on the Task Force in lieu of current member, A'Jamal Byndon. Commission policy does not allow for more than one voting member from a stakeholder group on any of its subgroups. If approved, Ms. Paul would replace Mr. Byndon as a voting member. Mr. Byndon would then move to a non-voting, resource position on the Task Force.
